THE GRAND JURY DONE

The Trial of Federal Cases Will Begin Tomorrow.

The United States grand jury yesterday afternoon submitted its final seport and was discharged. Earlier in the day a report was put in containing indictments against several persons,

A SUDDEN TWINGE Of pain is generally the first warning of an attack of rheumatism. It feels as if the disease were in the bones or muscles, but the real cause of

tism after I had tried a dozen remedies without relief and also gone West in search of health," writes Harry Kitter, of No. 1645 6th Street, Denver. Colo. "Only those who have suffered from this dread malady know the pain and misery I endured for over five years. Whenever the weather was damp or cold my troubles were increased and my joints would be so stiff and sore that I was hardly able to move about, and often unable to dress myself. I used a number of highly recommended medicines, but they had no effect whatever on me, and I came to Colorado hoping to regain my Discovery, and in four months and a half after I began using it I was a well man, and have had no touch of it for the past seven months."

The sole motive for substitution is to

permit the dealer to make the little more profit paid by the sale of less meritorious medicines. He gains; you lose. There-fore accept no substitute for "Golden Medical Discovery."

These tiny, sugar-coated anti-billious granules regulate and invigorate Stomach, Liver and Bowels. Do not beget the "pill habit," but cure constipation. One or two each day for a laxative and regulater, three or four for an active cathertic. Once tried always in favor. Put up in vials; always fresh and reliable.

CURBING CAVE CREEK

The supervisors are threatened with opposition to the project for the diversion of the waters of Cave creek from Phoenix. The board has advertised for the construction of a rock dam for that purpose and several contractors have called at the office of the board to see the specifications Among them was J. G. Harden, who ives in that part of the country and who has a ditch which was taken out of Cave creek.

Mr. Harden is not in favor of the dam project and offers to find anoth er way for the diversion of the waters of that uncertain stream by means of bigger ditch which he will undertake to dig if the board will make it worth his while. The plan proposed by the board would interfere with his irrigation project and it has since come to the hearing of the board that Mr. Harden would likely bring an injunction proceeding against the building of the

dam as proposed. It will be remembered that at the time of the Cave creek floods last spring, while the people were trying to find out how the waters from that stream got here and what had turned them from their usual course, the theory was advanced that Mr. Harden's ditch had furnished the opening, and that in that way that a sea of waters which inundated the western part of the city and all the country lying north was made up of the waste water from Mr. Harden's irrigating operations. There was an inquiry put on foot whether the law relating to the care of waste water could not be made to apply to Mr. Harden.

It was, however, afterward learned that his ditch had nothing whatever to do with the floods.
